

Not clear when he received box of clothes from Edwin Carpendor but thinks it was Sunday. Thinks Police kept clothes Dr. Hall wore when shot. Does not know hour Sunday he received body (426).
CROSS EXAMINATION:

Nothing unusual about the permit received for the burials. The permit received from Dr. Long was the usual one exchanged for burial permit (427).

On Saturday about 1.30 Mr. Edwin Carpendor and Mr. James Neilson asked Mr. Hubbard to go to the bodies with them and he took them in his car. (428)

Mr. Stevens did not accompany the party and Mr. Hubbard did not see him at the scene (428).

Mr. Carpendor and Mr. Neilson both relatives and friends of the family (429).

Stevens plot in Greenwood Cemetery. Mrs. Hall's mother, Mrs. Stevens, buried there (429-30).

Mr. Henry Stevens is only member of the family that went in the vault and gave directions where Dr. Hall's casket should be placed. Mrs. Hall remained in automobile (430).

Vault was under a large mound with a slab over it, which is taken off and steps go down to underground burial place. Caskets are placed in niches. Mr. Henry Stevens said Dr. Hall was to be placed next to Mrs. Stevens which would leave a place for Mrs. Hall next to Dr. Hall. (431)

This was found impossible as there was only one place available in the row. Mr. Stevens went up and talked with Mrs. Hall and then came back and said to place Dr. Hall in the bottom row
